Penalty & Warning Price List

Effective: 2025-08-10 - Version 1.0

This document defines the current charges for late container events. Admins can issue a warning (no fee) or a penalty (fee applied). Amounts are calculated from the rules below but can be overridden case by case.

Reason	Type	Rate	Currency	Description
Late departure	Per day	EUR 50 / day	EUR	Container left origin later than its ETD.
Late arrival	Per day	EUR 50 / day	EUR	Container arrived at destination later than its ETA.

How Amounts Are Calculated

Both rules are per day. The default calculation is:
amount = days late x EUR 50. Admins can override the calculated amount before sending.

Examples

Case	Input	Calculated amount
Late departure	ETD delay: 2 days	2 x EUR 50 = EUR 100
Late arrival	ETA delay: 3 days	3 x EUR 50 = EUR 150

Admin Usage

Warning: Inform the user (no fee).
Penalty: Pre-fill days late -> auto-calc amount -> set due date -> send email.

Notes & Terms

- Currency: EUR. Rates exclude VAT and may be updated with notice.
- This price list applies to manual admin actions in the app.
